Brussels, 22/04/2026

Subject: Motivation to join the Be-cause Health Steering Committee

Dear Members of the General Assembly,

I am writing to express my interest in joining the Steering Committee of Be-cause Health, building on nearly twenty years of professional experience working on health financing and social protection systems with Enabel and UNICEF.

Throughout my career, I have been engaged in supporting countries in the global south to strengthen equitable, sustainable and resilient health systems, with a particular focus on the links between health financing, social protection, and universal health coverage. My work has combined policy dialogue, programme design and implementation, and institutional capacity strengthening, in close collaboration with governments, bilateral and multilateral partners, civil society organisations and academic institutions.

I am particularly motivated by Be-cause Health's role as a platform for dialogue, knowledge exchange and collective action, bringing together diverse actors from research, civil society, public institutions and international cooperation.

My appointment as one of the coordinators the Working Group on Social Health Protection in October 2025 has strengthened my engagement with the Be-cause Health network in recent months and informs my motivation to contribute more strategically through the Steering Committee. I believe that my professional background, combined with my commitment to collaborative and cross-sectoral approaches, would allow me to contribute constructively to the Steering Committee's work.

Thank you for considering my application. I would be honoured to support Be-cause Health in its strategic governance and future development.

Sincerely,

Charlotte Taylor
