Subject: Candidature for the Be-cause health Steering Committee

Dear Members of the General Assembly,

I would like to submit my candidacy for the Steering Committee of Be-cause health as representative of the Health Impact Coalition. Be-cause health has built a unique pluralistic space that brings together diverse actors committed to a stronger contribution to global health.

As Coordinator of the Health Impact Coalition, I represent a coalition whose members include Damien Foundation, Artsen Zonder Vakantie, Médecins du Monde Belgique, JustSee, Memisa, Viva Salud, Handicap International, and Chaîne de l'Espoir Belgique. All of them are members of Be-cause health, and through this candidacy we want to strengthen our collective involvement and contribution to the network.

Over the years, I have engaged in several Be-cause health working groups, including e-Health, SRHR, and Social Protection. I value the platform's role in connecting expertise, encouraging collaboration, and shaping dialogue on global health.

Through a seat on the Steering Committee, I would be committed to contributing actively, constructively, and consistently to the network's strategic reflections and collective action.

Yours sincerely,

Felipe SERE
