

### Who are we?

The Working Group on Sexual and Reproductive Health and Rights (S&RHR) is an initiative of several member organisations of Be-cause Health which share a common concern to support the implementation of the policy note "The Belgian Development Cooperation on Sexual and Reproductive Health and Rights" of March 2007. The Working Group aims at contributing to the promotion of sexual and reproductive rights and to improve the availability, the accessibility and the quality of sexual and reproductive health services for all in all countries where Belgian development actors - or those supported by the Belgian Cooperation - intervene.

At the brink of the 'Post-2015 Era' and on the occasion of the 20th anniversary of the Programme of Action of the International Conference on Population and Development (ICPD) and the outcomes of the ICPD review, the following members of the Working Group took the initiative to organize the 2014 Be Cause Health seminar:

*The organization of the seminar would not have been possible without the support of:*
